This course is discounted to anyone registering through PCWWA for a fee of \$225.00 (Normally \$320.00). This course is limited to the first 30 registrants. Priority will be given to current PCWWA members in good standing.

PLEASE NOTE: Class room space is limited. Priority will be given to current members first.

Seminar Description
DWT-2008-58-DIR
5.5 TCH

A HOISTING LICENSE RESTRICTION 1B COVERS ALL HYDRAULICALLY OPERATED CRANES WITH A TELESCOPING BOOM WITH A WIRE ROPE. THIS COURSE COVERS ALL OF THE DEPARTMENT OF PUBLIC SAFETY RULES AND REGULATIONS, HAND SIGNALS, WIRE ROPE, SLINGS, LOAD CHARTS AND SEVERAL PRACTICE QUESTIONS AND ANSWERS. IN ADDITION, THIS 1B HOISTING RESTRICTION WILL ALLOW YOU TO OPERATE ALL OF THE 1C HOISTING RESTRICTION EQUIPMENT.

THIS COURSE ALSO OFFERS PRACTICE TESTING COVERING EVERYTHING YOU NEED FOR A COMPLETE EDUCATION TO PREPARE FOR THE DEPARTMENT OF PUBLIC SAFETY STATE HOISTING EXAM. EACH STUDENT WILL BE SUPPLIED WITH THE DEPARTMENT OF

PUBLIC SAFETY'S HOISTING LICENSE APPLICATION AND THE PROPER APPLICATION INSTRUCTION.

AFTER COMPLETING THIS COURSE AND STUDYING THE MATERIAL STUDENTS WILL FEEL CONFIDENT THAT THEY ARE READY TO TAKE THE DEPARTMENT OF PUBLIC SAFETY'S 1B STATE HOISTING EXAM.

IF YOU HAVE ANY QUESTIONS REGARDING THE COURSE CONTENT OR QUESTIONS REGARDING THE MASSACHUSETTS REGULATIONS FOR HOISTING MACHINERY FEEL FREE TO CONTACT OUR COURSE INSTRUCTOR JOHN DeLUCA AT:

Course Instructor

John DeLuca

John has worked in the construction industry for over 30 years. At the age of 18 John started working for a water and sewer construction company as a laborer and quickly moved on to become an equipment operator. After five years with a private contractor John began working for the Boston Water and Sewer Commission (BWSC) as a special heavy equipment operator. As an employee of BWSC his career included several positions within his 20 years of employment. John now is currently the Operations Manager for the Water and Sewer Division with the Town of Framingham, Massachusetts.

During the past 30 years John has become proficient in excavators, backhoes, loaders, cranes, catch basin machines, and several pieces of specialty equipment.

John started as an instructor for hoisting license preparation eight years ago with a local school and in 2005 he founded Edgewater Career Training. His company's mission is to provide quality training for those individuals wishing to obtain a Massachusetts State Hoisting Engineers License. At Edgewater Career Training, students will receive specialized training to be prepared for the exam one must pass to obtain a Hoisting License as a requirement of the Department of Public Safety.
